The problems we aimed to solve

1 - Disconnected

Each department has their own mechanisms for advertising and applying for grants

2 - Difficult

Grants are difficult to find and time-consuming to apply for

3 - Size

Larger organisations have the capacity to search and apply, so receive more funding than smaller organisations

4 - Location

A disproportionate number of grants are awarded to organisations in the South East

5 - Fraud

With no centralised due diligence, grant processes are targeted by fraudsters

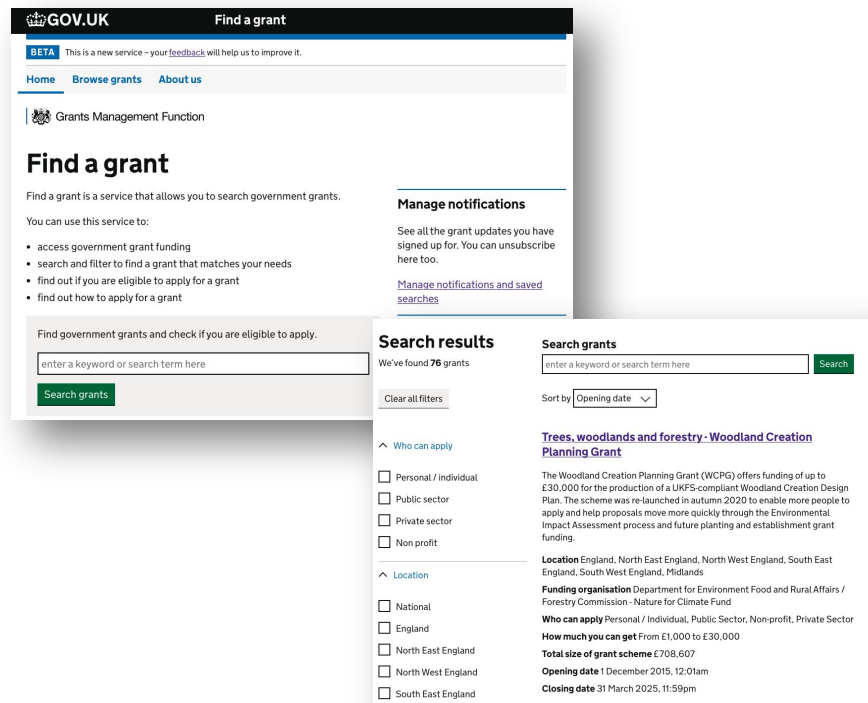

What we built

Find a Grant

A centralised service where all eligible* central Government grants **must** be advertised.
