

Using Find a Grant

To register, go to <https://www.find-government-grants.service.gov.uk/> and select 'Sign in and apply'. From there, follow the instructions to One Login and create an account via One Login. Once you have submitted your details, email findagrants@cabinetoffice.gov.uk and we will grant your account admin access.

In case you have not seen them, below are the training videos we have created which cover how to register to Find a grant, and how to create an advert using the service:

- [How to register on Find a Grant as a grant administrator](#)
- [How to build an advert on Find a Grant](#)
- [How to create an application form using Apply for a Grant](#)

The Find/Apply service is currently free for local authorities to use for advertising and application management until March 2025. There will **not** be a charge for searching for or applying for grants on the service after this date.

GGIS

For local authorities advertising on Find a Grant, please **do not try to register for GGIS**. This is for internal government use only. Instead, please enter 'N/A' when you are asked for a GGIS reference number, and you will be able to proceed.

Spotlight

For more information on Spotlight and the wider Government Grants Management Function, please visit this link: www.gov.uk/government/collections/grants-management-function. You can also get in touch with the team at spotlight@cabinetoffice.gov.uk.
